23. [ ] LIAISON Called Beverly Lumpkin, staff of the House International Relations Subcommittee on International Organizations, and told her that it would be necessary for the Subcommittee to submit an integrated narrative summary of the material they wish to have considered for public release. I told her that the document by document summary which the Subcommittee had left with us on 27 February would be helpful in the approval process but that the integrated summary was still necessary. I also told her that the Subcommittee's copies of the document by document summaries constituted classified material and should be stamped Secret.

24. [ ] CONSTITUENT Received a call from Joanna Greer, in the office of Senator Jennings Randolph (D., W. Va.), who had a request from a constituent for the number of black people employed by the Agency. After checking with OEEEO, I called Ms. Greer back and told her that I could not give her a specific number but that of all Agency employees, 7.5 percent were black. I informed her that this figure was as of 31 December 1977. She felt that this information would be satisfactory to the constituent.
